THE SMART WAY TO START

There’s no avoiding the inherent risks of mountain biking, but there are actions you can take as a rider to minimize the possibility of a crash or injury. Tools change due to a number of factors including weather and riding traffic. All riders, regardless of skill level or time in the saddle, employ the Two-Hour Warm-up before hitting trails on every visit to the Bike Park.

Start slowly and build your speed to learn the trail and develop the appropriate skills.

Familiarize yourself with the flow of the trail, and gradually begin building your speed as you become more comfortable.

FREE-RIDE

Only once you’re warmed up, familiar with the trail and feeling comfortable.

NEW RIDERS

If you’re new to the sport of downhill mountain biking, we suggest you start your ride on our beginner trail, The Grove. Move on to The Grind only once you’ve warmed up and feeling comfortable.
